## ARTICLE TITLE

### **Abstract (100-150 words)**

An abstract (author's summary) is a short summary of a scientific paper. According to the abstract, the reader should understand the essence of the research. The results of the work are described very accurately and informatively. The text should not contain secondary information, unnecessary introductory words, general and insignificant formulations, abbreviations, references to literature. The abstract should be written in one paragraph. A well-designed and translated abstract increases interest in the article, as well as the likelihood of the article being cited by foreign colleagues.

**Keywords:** from 5 to 7 words (size 11pt)

### **Introduction (12 pt)**

Relevance of the work, literature review, main provisions of the study.

### **Materials and methods**

- Theoretical analysis
- The experimental part

### **Results and its discussion**

Description of the results that were obtained or will be obtained during the experiment. There is also a discussion of all stages of the experiment. It also includes figures and tables. The volume is at least 2 pages.

### **Conclusion**

Conclusion, research results and discussion, practical suggestions and recommendations.

### **Gratitude**

If available, specify in one paragraph the sources of research funding, organizations, persons who provided assistance, etc.

### **References (at least 7 sources) (sources must be in the original language)**

1. Source 1.
2. Source 2.
3. Source 3.
4. Source 4.
5. Source 5.
6. Source 6.
7. Source 7.
